MERCHANDISING GUIDELINES

There are basic merchandising guidelines that will help you create a visually impactful display

1. Always create a centre focus to tell the key product story of the season. i.e **Rose Gold & Black**
2. Group styles together by size, colour or story.
3. Separate your Gents and Ladies styles from each other.
4. Separate clearance styles to one side of the display.
5. Merchandise smaller styles at the front of the display, with larger styles towards the back. Use blocks and bars for heavier styles to create height and balance to the display.
6. Position all watches so they are facing the same angle to ensure optimal visibility to the customer.
7. Use photo holders and tri cards to highlight key features and price points.
